WHY POWER-LITE™ LED

Utilising the POWER-LITE™ LED Flood Light provides many benefits in addition to the substantial costs savings achieved through LED technology. Our LED Flood Lights tackle the usual challenges faced with providing a lighting solution, including the elimination of UV therefore insects will not be attracted to this light. There is no warm up process, the light is immediate and reaches full output upon the flick of a switch. The IP65 rating and high quality powder coating provides a durable and safe solution, protecting the product against rust and water penetration, meaning no maintenance is required.
